

## FSC Baltic meeting in Latvia 8 – 10 March 2017

### Background

This is a meeting in a Swedish Institute financed project. The project aims to strengthen the network between the FSC offices in the Baltic and Nordic countries and to cover some current issues in relation to bioeconomy. The main area chosen is the implementation of the Bird and Habitat directives in relation to the development and implementation of the FSC forest management standard. In this meeting BirdLife representatives are invited as being part of the environmental interests in FSC. A next meeting is planned in the end of August in Estonia and will also include certified forest owners and authorities responsible for the directives.

### Practicalities

The meeting location is Melnais stārķis guest house in Jurmala around 30 km from the Riga airport [http://www.melnaisstarkis.lv/Kontakti\\_en.html](http://www.melnaisstarkis.lv/Kontakti_en.html)

Pick up at the airport in Riga will be arranged. Good clothing and footwear is important as there will be an excursion and possibly more of outdoor activities.
